TRANSFORMING INDIAN KITCHENS

Re-defining the Joy of Cooking

The love for cooking has been an art that warms hearts and homes. From time immemorial, good food and happy memories have always been a part of every family. At Pigeon, we reflect this integral thought in all that we do. It is also reflective of our lifelong commitment to make cooking not just simpler & easier, but also healthier for a growing generation.

The brand's journey traces back to 1994, when the enterprising Mr. Rajendra Gandhi incepted 'Vardhaman Enterprises', a manufacturing unit for kerosene wick stoves and LPG stoves. Very soon, the brand Pigeon was born and every successive year, a new product category was added to its growing portfolio. From LPG cooktops to pressure cookers to non-stick cookware & mixer grinders, a full-fledged range of over 500 innovative products today caters to the needs of every modern Indian kitchen. Constantly endeavouring to add value through simplicity and functional superiority, each of our products is a testament of our love for unparalleled excellence.

Today, Pigeon's varied products continue to win the trust of households, nationwide. Available across all pin codes of the nation, with a considerable presence in around 20,000 retail stores & all major e-commerce platforms, the brand also exports to 12 countries in the Middle East & the Indian subcontinent.

Pigeon's holding company, Stovekraft, is over 2500-member strong today with a strong distributor base that spans the length & breadth of the country. Over the last two decades, the brand has achieved several landmarks including becoming the No. 1 cooktop brand & the largest non-stick cookware brand in India. Pigeon is also the proud innovator of the patented all-in-one super cooker and the screw-less, frameless & smart range of Infinity glass cooktops. What's more, the brand is also the recipient of the coveted 'iDesign Award' for its Super Storm Mixer & has been awarded India's Most Admired Brand by White Page International.

Going forward, Pigeon stays committed to making the love of cooking, an easier and enjoyable one. Through intelligent innovation & aesthetic improvisation, Pigeon aims to reach out to new-age home cooks who love to create faster, healthier, more delicious meals.

The joy of cooking must be redefined by adding ease, efficiency and happiness!

SEAMLESS IN DESIGN, SEAMLESSLY INTELLIGENT

INFINITY GLASS COOKTOPS

Welcome the Infinity Glass Cooktop – a true marvel that stands out with its modern, new-age glass body. The word **'infinity'** which means **'limitless'** translates into the product design as well. With a sleek, screw-less body that is devoid of any sharp edges, this cooktop is truly infinite in its look and feel.

The Infinity Cooktop is not just a good looker though. Its minimalistic design with toughened glass can handle up to 200Kgs of load, without any complaint. This, coupled with its sturdy legs ensure your cooktop is extremely strong and well-balanced. Its jumbo brass burners have been specially created for you to create delicious meals quickly and efficiently, no matter how many guests you have over or how large your family is. Perfectly capable of handling the challenges of elaborate Indian cooking procedures, the seamless engineering and interchangeable spill trays make for easy cleaning and maintenance as well.

Bring home an Infinity Cooktop and you'll realise how infinitely delightful it is to make your favourite dishes.

Truly, the stunning new centrepiece of new-age kitchens has arrived!
