Honey-Comb Pads

Supports balanced cooling in a room. They are low on maintenance & anti-erosive, ensuring long life.

Inverter Compatible

Stay cool even without electricity. This cooler can easily run on inverter when there is an electricity cut.

Auto Fill

Filling tank is always a hassle for everyone, so we come up with Auto Fill function.

It allows user to fill water tank automatically by attaching cooler via a hose to a direct water supply

Unique and Stylish New Design

Sunflame Aeromax desert cooler comes in unique and stylish design for a premium look and feel. Its unique design features makes it look elegant and alluring. It comprises of sober combination of cool grey and white colour to blend into any home décor.

Stylish looking control knobs

This desert cooler comes with a new stylish and unique looking control knobs, designed keeping in mind the contrast and combination of colours. The cooler with its design definitely makes it stand out amongst others.

Larger tank capacity for longer cooling

This cooler comes with 55 litres and 95 litres gross capacity for a longer duration of cooling. With larger tank capacity you continue cooling the room temperature for a longer period without taking tension of refill during the summers.

Auto-fill Tank for tension free refill

When the water tap is directly connected to Auto-fill function, it helps to refill the cooler tank continuously without taking tension to close the tap or filling it manually. It saves time and also conserves the water from getting wasted.

Tall Height Air Cooler

Tall Desert coolers are designed to keep you comfortable by providing airflow at the seated level. They come in large capacities and thus provide uninterrupted supply of cool air for longer periods

Castor Wheels with stand for ease of movement

Castor wheels eases relocation and transition of cooler from one place to another. The stand gives the balance and strength and also adds up beauty which makes it a design rich product.
