

Whirlpool

HOME IS WHERE
WHIRLPOOL IS

RANGE BROCHURE - 2019

Every second,
a Whirlpool product is sold*
somewhere in the world

With new technologies built
and perfected by experts
over a 100 years

Operating in more than 170 countries.

Technologies from 70 manufacturing & technology centres.

Centres in USA, Brazil, India, China & South Africa.

Home is where Whirlpool is

The world's largest home appliances company is not a company that only makes home appliances. For over a 100 years, Whirlpool has also been making partnerships with homemakers around the world. We have been helping them provide the best care to the people they love and turn their houses into homes, where they don't just live, but also make a life for themselves.

Over the last century and into the new millennium, Whirlpool has been a part of these daily moments of care. We have been constantly learning and evolving with the needs of our consumers. It is this rich understanding of our consumers' lives and their homes that has made us the home care experts who don't just design products, but help create experiences that move with their ever-evolving lifestyle.

We understand that when it comes to a home appliance, it's not just about what it does, but about how it makes you feel. We also understand that it's not about convenience, but about comfort above everything else. Home appliance are not just about satisfying your needs, but about anticipating them and intuitively providing solutions based on the latest technology and innovations. And at the heart of it all is our 6TH SENSE® Technology, that senses and adapts to your needs to create everyday moments of true delight. That's why, no matter where you are in this world, with Whirlpool you'll always feel at home.

PREMIUM
REFRIGERATOR

A masterpiece for the connoisseur of art in you.

Presenting a wonder of the modern age, elegantly carved for an uber contemporary look. This masterpiece has been smartly crafted to give convenience, enhanced space and premium performance. And so, it seamlessly fits in amongst the collection of other masterpieces from around the world.

AI Microprocessor With Advanced Multi-sensor System

Optimises cooling for
long-lasting freshness.

6TH SENSE® CloudFresh Technology

Reduces 99.9%*
bacterial growth to
ensure healthy and
odour-free food.

Magic Shelf

Adaptive Space
Management design
for different storage
needs with 3
detachable containers.

Auto Glow Bar With Proximity Sensor

Senses and glows in
your presence.

TruView Lighting

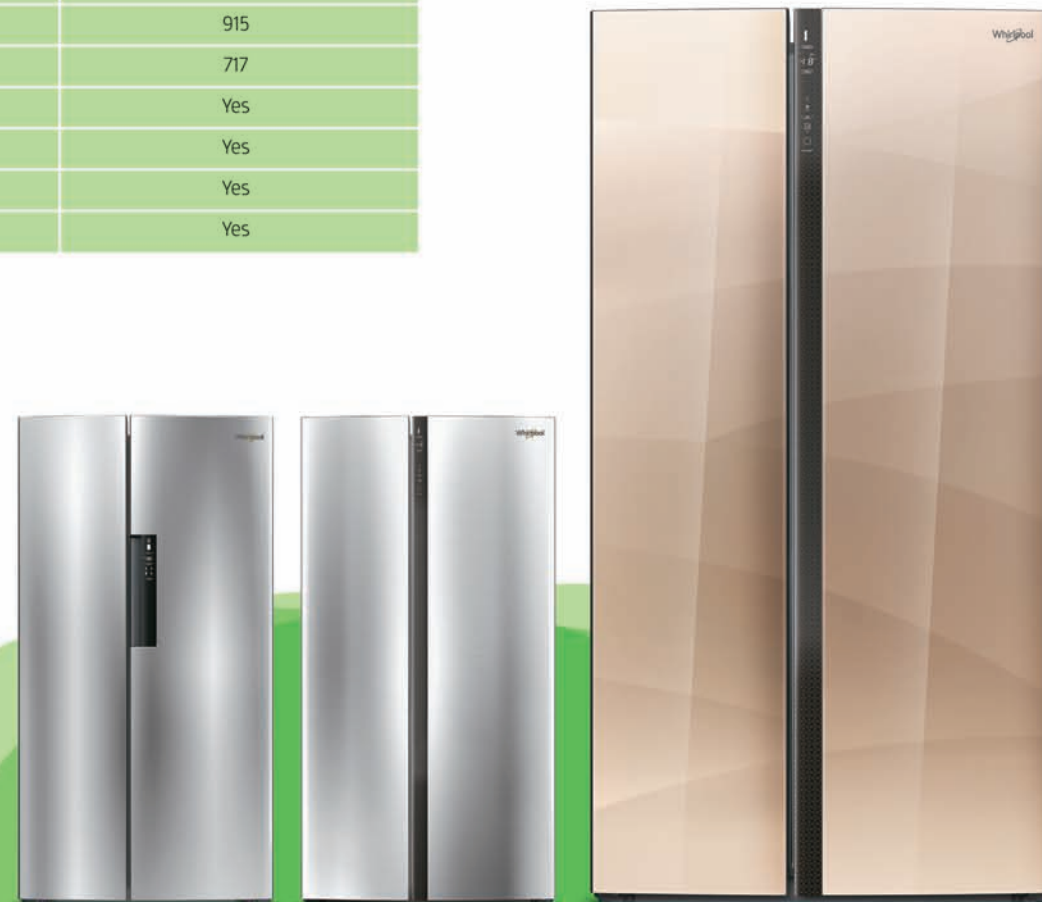

Brilliantly lit
interiors with top
& back LED that
helps see
every corner of
the refrigerator.

*Reduce growth up to 99.9% of select bacteria, results based on internal lab testing done on select models under standard test conditions and may vary depending on testing conditions and models. Images for visual representation only. Features available on select models.

PREMIUM
REFRIGERATOR

Whirlpool

Designed for your renaissance.

Presenting, the perfect blend of extraordinary performance and contemporary style. Powered by state-of-art technology and avant-garde features, it is elegantly designed to be a perfect indulgence that gracefully complements your lifestyle.

FreshLock Technology

Minimises temperature variations to maintain optimal cooling for long-lasting freshness.

FreezeLock Technology

Minimises temperature variations in freezer to reduce freezer burns, preserving quality & texture of food.

CloudFresh Technology

Reduces 99.9%* bacterial growth to ensure healthy and odour-free food.

AI Microprocessor With Advanced Multi-sensor System

Optimises cooling for long-lasting freshness.

Advanced 3D Airflow Design

Its advanced 3D Airflow ensures maximum moisture preservation in food items, thereby keeping them fresher for long.

Convertible Freezer Zone#

Helps choose and set the desired temperature to cater to various storage needs.

Gradual Lighting

Innovative lighting which turns on gently and gradually when the door is opened. Gives time to eyes to adjust to the bright light comfortably.

FROST FREE
REFRIGERATOR

Experience boldness in performance and design.

Powered by Hybrid Cooling Technology.

Nothing says bold better than the Whirlpool W Series of refrigerators. Its Hybrid Cooling Technology helps retain optimum moisture through radiative cooling and preserves texture and taste. And its unique ice-making technology gives customised ice for the ultimate experience.

Hybrid Cooling Technology

Metal Cooling Tower and **Air Surround System** retains optimum moisture through radiative cooling and preserves texture and taste.

Intelligent Glow Bar*

A unique glass handle which intelligently detects the mode of operation and glows accordingly.

Customised Ice

It boasts of clear ice-making technology that can create 4 types of ice as per usage.

Unique UI

UI is schematically laid out for easy adjustment of basic settings like temperature, types of ice and monitoring the progress of ice formation.

*The bar glows green in eco mode and turns red on rise in temperature inside the refrigerator. Images for visual representation only.

TOP MOUNT REFRIGERATOR

Discover the pinnacle of design backed by excellent performance.

Powered by Hybrid Cooling Technology and Japanese Inverter Technology.

Carved to perfection, Whirlpool W-series top mount refrigerators truly define premium design and excellent performance. Powered by Hybrid Cooling Technology and Japanese Inverter Technology, they reduce direct contact of food with cold air, giving it an incredibly long-lasting freshness. Their captivating sparkling black glass finish makes this marvel of technology desired by all.

Hybrid Cooling Technology

Metal Cooling Tower and Air Surround System retains optimum moisture through radiative cooling and preserves texture and taste.

Japanese Inverter Technology

Compressor comes with 36 speed levels* that precisely control the temperature variation to give powerful cooling in minimum time.

Extra Cool Zone

Stores all your delicate foods without freezing them.

Bar UI

Interactive user interface on bar handle helps in easy access.

Energy Saving Mode

Automatically sets the temperature at sub-optimal levels when there is less food inside.

*In-built 36 steps as per Japanese inverter technology. Images for visual representation only.

IntelliFresh

Experience long-lasting freshness* With India's Most Intelligent Refrigerator†.

Powered by Adaptive Intelligence and SealFresh™ Technology.

Designed to give long-lasting freshness, the all-new Whirlpool **IntelliFresh** refrigerator comes with an AI and 3 Intellisensors. It continuously analyses data to ensure optimum freshness. Its refined aesthetics seamlessly adapt to its surroundings and enhance lifestyle.

Convertible Freezer™

Comes with 5-in-1 modes - All Seasons Mode, Chef Mode*, Dessert Mode, Party Mode and Deep Freeze Mode to cater to different storage needs.

IntelliSense Inverter Technology

Adapts the cooling according to the internal load, reducing energy consumption. It **automatically connects to the home inverter***, for matchless performance even during power cuts.

Adapta Shelves

Adapts to different storage needs and ensure the most customisable space management with ease.

SealFresh™ Technology

Adapts to the cooling inside and preserve the moisture of vegetables.

Intelli Icemaker

Adaptive and innovative water docking system with easy-fill ice trays.

Twin Crispers

Adapts to storage needs for vegetables to retain freshness.

*In its category. With 3 Intellisensors, AI Microprocessor, SealFresh Technology, Microblock Technology, Adapta Shelves and Intelli-Icemaker.

†Results based on internal lab tests done on select fruits and vegetables under specific test conditions on select models and may vary depending on testing conditions.

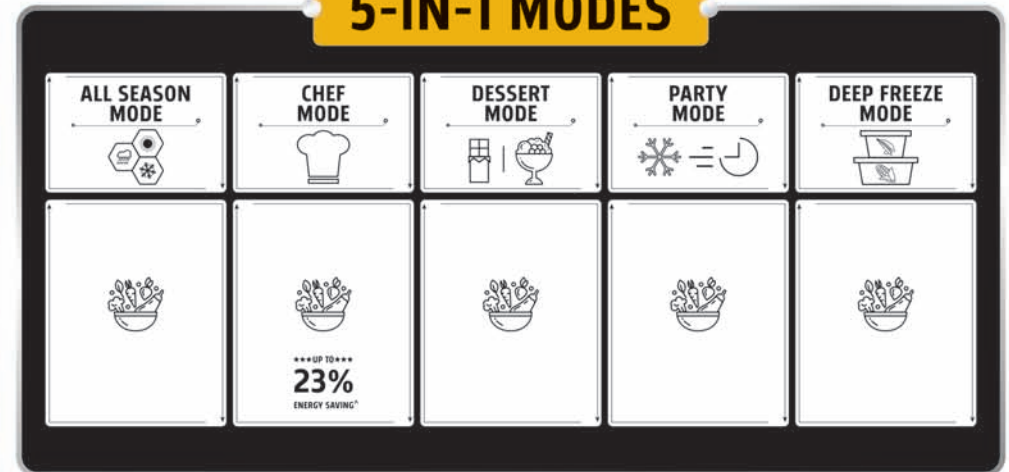

*Auto-connects to >2KVA Inverter connected to power switch. - These modes enable the consumer to vary/adjust the temperature of the Freezer to suit their differentiated needs. proton
WORLD SERIES

Experience up to
2X freshness.*

Powered by the 6TH SENSE® **ActiveFresh** Technology.

Designed to give more freshness, the Whirlpool Proton World Series of refrigerators come with India's only Active Fresh Zone. This zone provides up to 32 litres of large storage space[#], better cooling retention[~] and prevent odours from mixing, so that food can stay fresh for longer.

Moisture Retention Technology

Cold air flows around the compartment without touching the vegetables, keeping the contents cool while retaining the moisture and natural freshness.

MicroBlock Technology

Adapts to varying internal conditions to prevent up to 99%[~] bacterial growth, keeping fruits and vegetables fresh for longer.

Active Fresh Zone

A large separate drawer* that offers up to 32 litres of storage space for more fruits and vegetables.

Customised Cooling Technology

Customisable temperature knob for delicacies like cheese, berries, chocolate and other dairy products.

Air Booster

Controls the circulation of cold air throughout and ensures that each compartment receives the optimum cooling it requires and also prevents odour mixing.

Zeolite Technology

Prevents excessive ripening to keep fruits and vegetables fresher for longer.

*Results shown are based on internal lab testing and comparison done on select Whirlpool Proton model with previous Whirlpool Proton model of the year 2017.

[~]Results shown are based on internal lab testing done on select models under specific conditions and may vary depending on testing conditions.

VitaMagic^{pro}

Experience the magic of Auto-defrost.

Powered by the 6TH SENSE® **IntelliFrost** Technology.

Presenting the all-new **VitaMagic** range of refrigerators, powered by 6TH SENSE® **IntelliFrost** Technology. It defrost intuitively based on the inputs from the Intellisensor and Advanced Microprocessor to give **faster ice-making^Δ** and **faster bottle cooling[†]**. Its patented **Zeolite** Technology prevents over ripening and ensures up to **40% longer** vitamin preservation^{*Δ} to give fruits and vegetables up to **12 days** of garden freshness^{*†}.

4X Precise Cooling*

Ensures up to 12 days of garden freshness^{*†}, faster ice making^Δ and faster bottle cooling[†].

Auto-defrost Technology

Provides better cooling and freedom from defrosting.

Zeolite Technology

The patented **Zeolite** Technology slows down the ripening process and keep vegetables fresh for a longer period of time.

12 Hours*^Δ of Milk Preservation

Prevents the growth of bacteria in the milk for up to 12 hours^{*†}.

MicroBlock Technology

Adapts to varying internal conditions to prevent up to 99%^{*} bacterial growth, keeping fruits and vegetables fresh for longer.

Up to 12 Days Garden Fresh*

The 6TH SENSE® **IntelliFrost** Technology not only preserves nutrients but also maintains an ideal condition for vegetables to stay garden fresh for up to 12 days^{*}.

^{*}Results are based on internal lab testing done on select models under standard test conditions and may vary depending on testing conditions and models. [†]Internal lab test conducted on select vegetables.

DIRECT COOL
REFRIGERATOR

New
icemagic^{pro}

Experience Auto-defrost and 4X precise cooling.⁺

Powered by the 6TH SENSE® *IntelliFrost* Technology.

The all-new Icemagic Pro range of single door refrigerators powered by Intellisensor and an advanced microprocessor. It defrosts intuitively to give **faster ice-making^Δ** and **faster bottle cooling[¶]**. Its 4-in-1 modes offer customisable temperature setting for different cooling needs.

4X Precise Cooling^{*}

Ensures up to 12 days of garden freshness[®], faster ice making^Δ and faster bottle cooling[¶].

MicroBlock Technology

Adapts to varying internal conditions to prevent up to 99%^{*} bacterial growth, keeping fruits and vegetables fresh for longer.

Auto-defrost

Prevents unnecessary formation of ice, leading to no manual intervention, zero water spillage and easy removal of items from the freezer.

12 Hours^{**} of Milk Preservation

Prevents the growth of bacteria in the milk for up to 12 hours^{**}.

4-in-1 Modes

Offers customisable temperature setting for different cooling needs i.e. Fast Ice, Quick Chill, Everyday & Power Saver Modes.

^{*}Results based on internal lab testing done on select models under standard test conditions and may vary depending on testing conditions and models. [®]Internal lab test conducted on select vegetables.

^ΔResults are based on internal lab test between NTC sensor & conventional thermostat, conduct on select models under standard test condition and may vary depending upon testing condition.

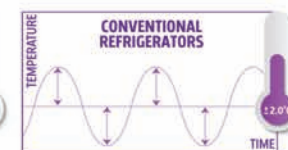

[¶]Results based on internal lab tests done select models in chiller section when operating in FFI setting vs. Mid setting under standard test conditions and may vary depending on testing conditions.

[¶]Results based on internal lab tests done select models when operating in FFI setting vs. Mid setting under standard test conditions and may vary depending on testing conditions.

^ΔProduct operating at highest cooling setting with restricted usage wherein Ph value of milk packet maintained above 6.4. Images for visual representation only. Features available on select models.

WASHING
MACHINE

New **FRESH CARE**
WASHER DRYER COMBO

Wash. Dry. Wear.

In just 45 minutes[^].

Expert washing meets expert drying.

With the in-built dryer, the **FreshCare** Washer-Dryer Combo washes and dries clothes in just 45 minutes[^]. Its **SteamCare™** Technology helps keep clothes fresh for up to 6 hours[#], post the wash cycle.

SteamCare™ Technology

Ensures that garments stay fresh inside the drum for up to 6 hours[#] post the wash cycle.

6TH SENSE® SoftMove Technology

Automatically senses the load and adapts drum movement to minimise friction and maximise wash performance.

A Energy Rating[~]

The machine is specifically developed to save energy by optimising performance.

Dry Only Option

When this function is enabled, the machine skips the wash cycle and can be used as just a dryer.

4 Levels of Drying

The machine comes with various levels of drying suitable for different kind of laundry.

Up to 99%^{*} Drying

Enabled with a powerful spin cycle of 1600 RPM^{***}, the machine dries the laundry up to 99%^{*} and gives ready-to-use clothes, every time.

[^]This cycle washes and dries a laundry load of up to 1kg in just 45 minutes.

[#]Results based on internal lab testing done on select model under standard conditions. Activated when FreshCare mode is selected. [~]As per commission Delegated Regulation (EU) No. 1061/2010.

^{*}Results based on internal lab testing done on select model under standard conditions. Applicable for up to 2 Kg of wash load under Eco Cotton 60°C program and Cupboard dry mode. Terms and conditions apply.

Stainwash

Fights tough stains.

With the 6th SENSE® *UltraClean* Technology and In-built Heater.

The Whirlpool Stainwash series of washing machines give you the power to remove up to 25 tough stains* with every wash. Powered by the 3D Scrub Technology and advanced In-built Heater, it gives clothes a 99.9%[†] allergen and germ-free wash.

Removes up to 25 Tough Stains*

Gives you a thorough and stain-free wash.

Hard Water Wash

This feature adapts the operations for washing in hard water conditions.

ZPF Technology

Fills tub 50%^{††} faster pressure in low water conditions.

3D Scrub Technology

The 3-spring loaded 3D Scrub Technology creates superior agitation that helps in knocking off tough dirt.

In-built Heater

Hygienic wash with in-built heater that removes 99.9% germs and allergens[‡].

SEMI-AUTOMATIC
WASHING MACHINE

NEW
ACE XL

Wash Heavy Loads with Ease.

With 3D Scrub Technology.

The AceXL range of washing machines are powered by 3D Scrub Technology. It combines with the 3D scrub pads and 3D lint filters that washes up to 14* king size bedsheets in one go and removes up to 10 tough stains*. The 5-Wash Program takes care of different fabrics. The beautiful amalgamation of power and care makes this machine a true powerhouse of washing.

3D Turbo Impeller

Unique Impeller gives better cleaning results.

5-Wash Program

5 wash modes for customised washing.

Hard Water Wash

This feature adapts the operations for washing in hard water conditions.

1400 RPM Motor

High RPM speed gives better drying results.

3D Lint Filter

3-layered filter for effective lint removal.

*Results based on internal lab test conducted on select Whirlpool models with identified stains washed within 48 hours under specific test conditions and may vary basis testing conditions.
*Results based on internal lab testing done on select Whirlpool model under standard conditions and may vary basis testing conditions. 14 king size bed sheets can be washed in 10.5kgs Machine only.

SEMI-AUTOMATIC WASHING MACHINE

superb
ATOM SERIES

Washing Clothes Made Easy.

With Turbo Scrub Technology.

Equipped with a 340 Watt motor and an in-built scrub station, the Whirlpool Superb Atom Series of washing machines are designed to give the most powerful wash, every single time. With 66 litres tub and a panel that's water & shockproof, these machines deliver an ideal washing experience.

Water & Shock Proof Panel

Designed to protect panel from water seeping inside, preventing any shocks.

Smart Scrub Station

Flow back design allows water and detergent to flow back into the wash tub, and allows to scrub on top of the machine.

340W Powerful Motor

Super efficient 340W motor helps rotate clothes in all directions, giving a through wash.

Large Wash Tub of 66 Litres

Gives more space to clothes for cleaning.

Large Spin Tub

Dries heavy loads with ease.

Now voice control your AC.

Powered by **3D Cool Technology**, Works with **Google Home**.

Connect to the future of cooling with the all-new range of 3D Cool Inverter AC. Now voice control your AC via Google Home - smart speaker powered by the Google Assistant. The 3D Cool Inverter AC features 3-air-intake vents that enable faster removal of hot air and ensure optimum cooling.

Google Home
with Google Assistant

Up to 40% Faster Cooling^{*,^}

3D Cool Technology ensures faster removal of hot air, leading to faster cooling of the room.

Up to 12m Air Throw^{*}

Longer air throw facilitates uniform, corner to corner cooling.

In-built Air Purifier

Helps remove 99%^{*} odour and purify the room of PM 0.3 particulates and 98.6%^{*} pollutants. It can also be used as a standalone Air Purifier.

Voice & Wi-Fi Enabled

Connects to the future of cooling with the all-new 3D Cool Inverter AC via Google Home.

Cools Even at 55°C^{*,~}

Backed by the compressor, 3D Cool Technology cools even in extreme temperatures of 55°C^{*,~}.

4-Way Swing

4-way swing facilitates uniform cooling.

* dBA value at low fan Speed.

All technical specifications and values are under standard testing condition and may vary in actual performance. Features and specifications are subject to change without prior notification.

Experience power cleaning & drying in just 1 hour.*

Powered by the **PowerClean Pro** Technology & **PowerDry†** Technology.

The all-new Whirlpool PowerClean dishwashers deliver ultimate performance for spotless cleaning and drying in just 1 Hour*. Thanks to its innovative PowerClean loading system with 12 foldable racks, these dishwashers provide up to 30%# extra space with loading flexibility to clean all the utensils at once.

PowerClean Pro Technology

Removes oil and tough stains through specially designed powerful rear water jets.

PowerDry† Technology

Helps in spotless cleaning and drying on every utensil, including plastics, in just 1 hour*.

43 db~ Noise

Sound level as low as 43db~ that provides absolutely no noise and disturbance.

A+++ Energy Rating^

The unique combination of PowerDry† technology and ultra-efficient inverter motors minimises the power consumption to deliver class A+++ energy efficiency*.

14 Place Settings

Flexible loading solutions of up to 14 place settings. Customised loading and a modular third basket allows even taller & wider items in the upper rack.

*Result based on tests comparing the performance of the 1 hour program of the A+++ comparable models. Models in A++ or less may have different results. #Percentage calculated vs. the loading space on models of the same Whirlpool range without power clean solution. ~Results shown are based on internal lab testing done on select models under standard conditions and may vary depending on testing conditions.

^Certified as per REGULATIONS COMMISSION DELEGATED REGULATION (EU) No 1059/2010. †Feature available in select models only.

Experience 2-minute crisping* AND ZERO IL^ COOKING.

Powered by the 6TH SENSE® **Crisp&Bake** Technology.

JET C World Series microwave ovens by Whirlpool presents the perfect blend of European design with intuitive technology. The 6TH SENSE® **Crisp&Bake** technology helps deliver perfect crisping and baking results in 2 minutes*.

Zero Oil* Cooking

Creates the perfect conditions to cook with Zero Oil*.

3D Dual Distribution

Special distribution system that allows even flow of heat for uniform thawing, heating and cooking.

Forced Air Oven Mode

Helps bake cakes and other dishes perfectly and evenly with the pre-set temperature with this mode.

Humidity Sensor

Monitors the moisture variations in the food and automatically adjusts the cooking time to prevent under or over cooking.

6TH SENSE® Technology with Weight Sensor

Senses the weight and automatically sets the ideal cooking parameters.

Steam Technology

Steam technology allows to prepare the healthiest and tastiest recipes with the touch of a button.

*1 year Comprehensive + 2 years on Magnetron.

Bring back the morning freshness.

Powered by the 6TH SENSE® **AnionShield** Technology.

Introducing Whirlpool Purafresh Air Purifiers, powered with 6TH SENSE® **AnionShield** Technology and an intuitive touch panel. These Purifiers eliminate the harmful PM 2.5* pollutants from the air and bring back the morning freshness.

PM 2.5* Filtration

Eliminates harmful PM 2.5* pollutants from the air.

Air Quality Indicator

Senses the air quality and changes colour accordingly.

Timer

Conveniently adjusts operations which can be set for 1 hour, 4 hours and 8 hours.

Auto-lock

Prevents wrong operation of appliance so that it can be used without worrying about children around.

Comfort Mode

Intelligently operates in low-noise mode and switches off indicator lights after 10 secs, thus ensuring a comfortable sleep.

THE RANGE OF PURAFRESH AIR PURIFIERS

Activated Charcoal Filter	Yes	Yes

Lifelong guarantee of purity.

Powered by **IntelliSense** RO Filter Technology.

Experience the innovative **IntelliSense** RO Filter Technology, powered by an intuitive Adaptive Intelligence Technology. It's advance 9-Stage purification system with Calcium Booster, Activated Carbon Block Design and Microblock Technology ensures pure and healthy water. And not just this, with India's First Do-it-yourself Filter Replacement Technology one can save time, cost and 100% genuine Filters with DIY Technology.

Adaptive Intelligence Technology

It senses the hardness of water and customises the purification process.

India's First Do-it-yourself Filter Replacement Technology

It automatically indicates the time to replace filters and gives the ease and convenience.

Activated Carbon Block Design

The tightly packed carbon particles remove harmful chemicals and restricts channeling effect.

9-Stage Purification*

9-Stage purification* (RO+UF+UV) gives pure and healthy water.

Microblock*~ Technology

Ensures 99%~ protection from bacterial growth in water storage tank.

^Results based on internal market research and feature benchmarking conducted amongst leading brands in this segment in the month of August 2018.

*Results of each purification stage based on lab tests on select models under standard test conditions and may vary depending on testing conditions. ~After 24 hrs of incubation load. Images for visual representation only. Features available on select models.
