Philips

Hair Straighteners

Get wow straight hair that feels like silk.

Kerashine Technology

Keratin is hair's essential ingredient which makes it strong, healthy and beautiful. The plates are enriched with keratin to boost protection and shine.

Silk ProCare Technology

Enjoy style and care with the Philips Silk ProCare technology. Plates smoother than silk glide through your hair with optimized temperature, minimizing friction and resulting in less heat exposure for beautifully straightened silky smooth hair.

Temperature control

The temperature settings allow you to adjust the styling temperature to 190°C or 210°C for extra care at lower temperatures and more control over your preferred styling setting.

Philips

Hair Dryers

Dry Fast with heat protection

ThermoProtect

The ThermoProtect temperature provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results in a caring way.

Ionic conditioning

Give your hair instant care with ionic conditioning. Charged negative ions eliminate static, condition your hair, and smooth the hair cuticles to intensify hair's shine and glossiness. The result is smooth and frizz-free hair with beautiful shine.

Cool shot

A must-have professional function for hair stylists. The Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

Philips Hair Removal

Use it, love it, get hooked to it

Be it sleeveless, be it skirts, be it even a moment's notice, be ready to flaunt your satin smooth skin with the new range of Philips epilators.

Experience the touch of feather smooth skin unlike any other method of hair removal. Philips epilators with their wide epilation heads and highest tweezer motions per second, result in a quick and easy epilation.

Now, be ready to go bold.

4x better than waxing

Philips epilators removes hair 4x shorter than waxing from the roots. Epilation causes less pain and gives you long lasting smooth skin right at the comfort of your own home.

Epilation head of unique ceramic material for better grip

Our epilator head is unique in being made from a rough ceramic material that grabs hair firmly, even fine hairs won't slip from its grip

Unique epilation system : Lift and pull hair from root

All of our Philips epilators have a unique system where the tweezers lift and gather the lying hair, guide them to the pulling point firmly grabbing and pulling out the hair. Combined with the unique round ceramic discs it epilates closer to the skin for optimal results and more gentleness.

BRE635

Satinelle Advanced
Wet & Dry Epilator
